### **DETAILED ACTION**

This is in response to RCE filed on 3/7/08 in which claims 24-46 are pending. The application and IDS have been fully considered therefore this case is in condition for allowance. In addition the pending claims have been renumbered as 1-23, respectively.

### ***Allowable Subject Matter***

1. The following is an examiner's statement of reasons for allowance: the prior arts of record fail to anticipate or render obvious the following recited features transmitting a layered modulation signal for at least one receiver, the layered modulation signal comprising both the upper layer signal and the lower layer signal interfering with each other within the frequency band such that the upper layer signal can be demodulated directly from the layered modulation signal and the lower layer signal can be demodulated after subtracting the upper layer signal from the layered modulation signal; wherein substantially no guard band is used within the frequency band as recited in claims 24, 32 and 46.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
